- REAR ROTOR MAX. SIZE203 mm
- SEATPOST / SEAT CLAMP DIAMETER31.6 mm / 34.9 mm
- BOTTOM BRACKET TYPEPress fit BB107 (compatible with BB92)
- ISCGISCG05
- FRONT DERAILLEUR TYPENo
- REAR HUB COMPATIBILITY150 x 12 mm
- Riders Insight
- An astonishing value, eager and rewarding ride with a slightly more 'freeride' feel. Generous sizing makes for a comfy cockpit, supportive suspension, air shock offers easily tuneable support and bottom-out resistance. Buy if you are after an option for versatile bike-park antics. **BIKERADAR.COM** The FURIOUS is top notch! It matches my style. I use it on DH tracks as well on big freeride jumps. Because of my riding style I like to attack and jump when exiting corners. We can really play with this bike, it suits me perfectly. **Kyle Strait** This bike is perfect. My favorite bike I've ridden. **dj Brandt** I've already done a lot of trails and I feel extremely good on this bike. I am surprised how light it is! **Andreu lacondeguy** For me the FURIOUS is the bike that goes everywhere. I can go on a trip without asking any questions. Behind the handlebars, I can do anything from DH, freeride or down stairs in Urban DH races, to tips on huge jumps! **Antoni Villoni** I think what I liked most the first time I rode a FURIOUS was the feeling of having a very progressive suspension kinematic. I immediately felt that I could go much higher and further on the jumps than with a DH model. It is a very easy bike to handle. **Brendan Howey**
