Riders Insight

An astonishing value, eager and rewarding ride with a slightly more 'freeride' feel. Generous sizing makes for a comfy cockpit, supportive suspension, air shock offers easily tuneable support and bottom-out resistance. Buy if you are after an option for versatile bike-park antics. **BIKERADAR.COM** This bike is perfect. My favorite bike I've ridden! **Brandt** The FURIOUS is top notch! It matches my style. I use it on DH tracks as well on big freeride jumps. Because of my riding style I like to attack and jump when exiting corners. We can really play with this bike. It suits me perfectly! **Kyle Stratte** I've already done a lot of trails and I feel extremely good on this bike. I am surprised how light it is! **Andreua lacondeguy** I've already done a lot of trails and I feel extremely good on this bike. I am surprised how light it is! **Andreua lacondeguy** For me the FURIOUS is the bike that goes everywhere. I can go on a trip without asking any questions. Behind the handlebars, I can do anything from DH, freeride or down stairs in Urban DH races, to flips on huge jumps! **Antoni Vilioni** I think what I liked most the first time I rode a FURIOUS was the feeling of having a very progressive suspension kinematic. I immediately felt that I could go much higher and further on the jumps than with a DH model. It is a very easy bike to handle. **Brendan Howey**
