Riders Insight

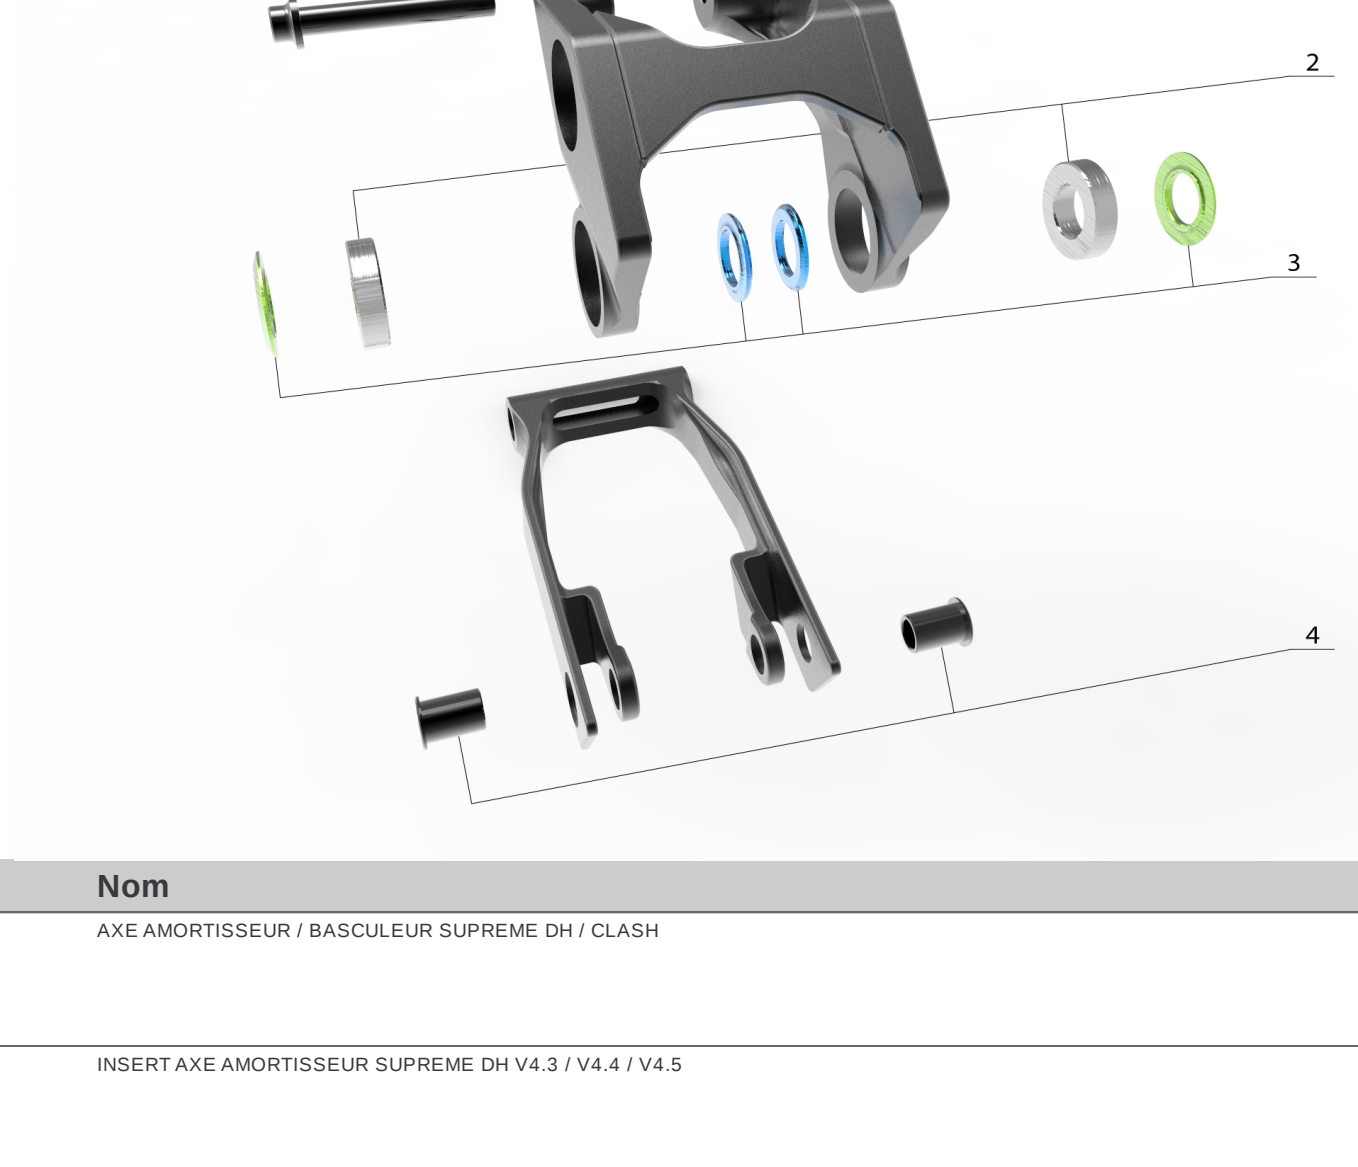

Fast in the rough and through rocks but also ideal to ride in bike park in high season, especially since it is perfect to fly over the braking bumps!**Antoni Vilioni** really appreciate the 27.5 SUPREME DH because its playful and fun to ride. For the 29" version, although it is more comfortable, it depends more on the size and power of the rider. The geometry of the 27 is good for me, it absorbs the holes well and offers a dynamic behaviour of the bike. In recent times DH tracks are getting faster and faster. Riding a size M allows me to have a longer bike and to gain stability. I feel really good about that size and the 27 wheels.**Myriam Nicole**
